Book Condition: New. Publisher/Verlag: Springer, Basel | Early Detection and Surveying of Soil Contamination and Degradation | This volume contains the proceedings of the workshop on "Soil Monitoring: Methods for Early Detection and Surveying of Soil Contamination and Degradation", held at the ETH seminar centre "Stefano Franscini" of Monte Verita, Ascona (Switzerland) from October 18 - 23, 1992. Seventy participants, representing a variety of institutions, nations, and disciplines, discussed the concepts, approaches, status, gaps, problems, and perspectives of soil pollution monitoring. The idea for this workshop came from A. Desales when he was installing the Swiss National Soil Monitoring Network (NABO) as his doubts about the philosophy of soil monitoring prevailing at that time increased. This philosophy essentially equated soil monitoring with repetitive surveys of soil pollutant concentrations at permanent observation sites. He sought others interested in discussing alternatives, and he found a ready partner in the ETH-Institute for Terrestrial Ecology. Soon it was realized that a discussion of the NABO would immediately raise general questions with respect to the conceptual basis of soil monitoring and that a minimum agreement on this basis was indispensable to discuss more specific problems related to the realization of the NABO. As a result, a workshop was organized whose objectives were in particular (i) an assessment of current knowledge on soil monitoring by permanent networks, (ii) a synthesis of the experience from different disciplines related to soil monitoring, (iii) the identification of research gaps with respect to long-term and large-scale soil monitoring, and (iv) the design of a platform for the development of soil monitoring strategies and methodology. | Soil Monitoring in Switzerland by the NABO-Network: Objectives, Experiences and Problems.- Monitoring and Control of Regional Material Fluxes.- Available Databases for the Assessment of Regional Mass Balances in Agricultural Land.- Objectives of Long-term Area...
