

Elementary Linear Programming with Applications (Mixed media product)

Filesize: 7.13 MB

Reviews

Unquestionably, this is the best operate by any author. It is among the most amazing pdf i actually have read. Its been designed in an remarkably basic way which is just right after i finished reading this pdf by which basically altered me, change the way i believe.
(Harold Spencer)

ELEMENTARY LINEAR PROGRAMMING WITH APPLICATIONS (MIXED MEDIA PRODUCT)

Elsevier Science Publishing Co Inc, United States, 1995. Mixed media product. Book Condition: New. 2nd Revised edition. 234 x 160 mm. Language: English . Brand New Book. Linear programming finds the least expensive way to meet given needs with available resources. Its results are used in every area of engineering and commerce: agriculture, oil refining, banking, and air transport. Authors Kolman and Beck present the basic notions of linear programming and illustrate how they are used to solve important common problems. The software on the included disk leads students step-by-step through the calculations. The Second Edition is completely revised and provides additional review material on linear algebra as well as complete coverage of elementary linear programming. Other topics covered include: the Duality Theorem; transportation problems; the assignment problem; and, the maximal flow problem. New figures and exercises are provided and the authors have updated all computer applications. The companion website contains the student-oriented linear programming code SMPX, written by Professor Evar Nering of Arizona State University. The authors also recommend inexpensive linear programming software for personal computers. Please note the previous printing included a disk attached to the back of the book. It includes more review material on linear algebra. Elementary linear programming is covered more efficiently. Its presentation is improved, especially for the duality theorem, transportation problems, the assignment problem, and the maximal flow problem. It includes: new figures and exercises; computer applications that are updated; companion website on with the student-oriented linear programming code SMPX, written by Professor Evar Nering of Arizona State University. This is a new guide to inexpensive linear programming software for personal computers.
