PHILOSOPHY OF NUMBERS

Munshiram Manoharlal Publishers Pvt. Ltd., 2007. Hardcover. Book Condition: New. 19 Figures (illustrator). First. 15 X 23. This book is about numbers and so many questions relating to them. What is the nature of numbers? Are they discovered or invented? What is mystical about them? Mathematicians develop a hierarchy of numbers in which mysterious dichotomies appear. For example, the integer 5 is not the same as the rational 5 which in turn is different from the real 5. The author...

Reviews

This publication is really gripping and fascinating. It is among the most amazing ebook i have study. I am just quickly could possibly get a satisfaction of looking at a written ebook.

-- **Dr. Earl Harber**

This ebook will not be easy to get started on looking at but very exciting to learn. It can be rally interesting throug looking at period. Its been written in an exceptionally basic way and it is merely following i finished reading this pdf in which in fact transformed me, alter the way i really believe.
