Dimensions: 10.7in. x 8.3in. x 0.3in.Just as many football players have failed to become great coaches, so too have many governmental leaders, leaders of industry and military officers failed to succeed when placed at higher levels of responsibility. Understanding how to solve problems at increasingly higher levels of dynamic complexity is certainly important to the success of the military at large. Being able to discern a complex situation, sizing up what is happening and what is critical to the situation, knowing ta glance what is occurring and why, confidently understanding what is important (and what is not), and then making a successful decision to respond are critical aspects of senior leader decision making. Resources at this level are rarely sufficient to overwhelm the opposition everywhere continuously. Divining a path of success that maximizes leverage over the competition as least cost is imperative for long-term operations. One way to explore this vital issue is to examine the thoughts and decisions of those who have been thrust into complex decision making situations and were eminently successful, time and again. Sir William Slim faced almost insurmountable complexity in dealing...
