

Fourier Transform Infrared Characterization of Polymers

Filesize: 7.6 MB

Reviews

Basically no phrases to describe. I was able to comprehend everything out of this published ebook. You can expect to like the way the author compose this ebook.

(Mrs. Novella Will)

FOURIER TRANSFORM INFRARED CHARACTERIZATION OF POLYMERS

DOWNLOAD

Book Condition: New. Publisher/Verlag: Springer, Berlin | This book contains the proceedings of the Symposium on FT-IR Characterization of Polymers, which was held under the auspices of the Division of Polymer Chemistry, American Chemical Society (ACS) during the annual ACS meeting in Philadelphia, August, 1984. The content of each paper has been substantially extended from the papers presented during the conference. Due to the accidental, irrecoverable loss of the entire contents of the book by the computer system used for editorial purposes, the publication of this book has been delayed more than one year over the initial scheduled date. It has been a continuous, frustrating experience for the editor as well as for the authors. An extended Murphy's law, -anything can go wrong goes multiply wrong- has been demonstrated in editor's office. It necessitated, otherwise unnecessary, repeated proof reading during which time the editor had valuable experience ~n familiarizing himself with each paper much more than usual. The papers in this book are state-of-the-art even after such a delay. It is the authors pride and integrity toward the quality of each paper that makes the value of this book long lasting, while responsibility of the loss of any timeliness rests at the editor's hand. For the purpose of official records, submission and acceptance dates must be stated. All papers had been submitted by September, 1984, and had been accepted for publication by November, 1984, after the critical review processes. | I. Introduction.- to Optics and Infrared Spectroscopic Techniques.- II. Polarization-Modulation Techniques.- Characterization of Polymers Using Polarization-Modulation Infrared Techniques: Dynamic Infrared Linear Dichroism (DIRLD) Spectroscopy.- A Comparison of Spectral Subtraction and Polarization Modulation Spectroscopy for use in Deformation Studies of Polymers.- Fourier Transform Infrared Vibrational Circular Dichroism in the Carbonyl Stretching Region of Polypeptides and Urethane Amino Acid Derivatives.- III. New...
